FIND YOUR INDIVIDUAL PRIORITIES

LIFE & DEATH

LOVE & ONENESS

HEALTH & JOY

SUCCESS & COURAGE

INNER GROWTH & WEALTH

PURPOSE & VISIONS

We can chant like kings and queens instead of beggars  
We can the gift of life that was granted to us and  
to which all colors of the rainbow belong include celebrations  
this mood of love – left to themselves - surrender and trust  
is the breeding ground on which the transformation can take place

*Deva Premal*

To live your individuality full of love and awareness - makes your whole life rich  
Richly defined wealth is not just material and measurable - it is your compassionate nature  
It is the deep involvement in all life situations - whatever comes – you continue to love  
The more aware you are - the greater your inner growth - the more new doors open

What do I bring to my everyday life  
in a positive way ?

What do I do to leave the prison in me  
To encounter something new ?
